THE LOXODIAN

New Year, New Goals

The new Loxodian year has arrived, and with it new goals for the nation moving forward. One notable thing is the new *Loxodian* newsletter in a new format. The king has wanted to get the latest news into the hands of every Loxodian, but the execution of this task has been delayed for quite some time.

“Great things are coming for our great nation. Our beloved Loxodia is not a dead nation”

In response to the speculation about the nation dying not long after being established, the king states “Great things are coming for our great nation. Our beloved Loxodia is not a dead nation, but is still alive.” The king is very much concerned about our nation, with only him, two Lords, and two citizens to account for in the first quarter 5777 census. This month, the king also introduced a new currency symbol for the Loxodian shekel: Lx\$. The capital L and lowercase x represent Loxodia, and the dollar sign \$ represents an “s” for “shekel.” There is also a new numbering format for currency. The new format is Lx\$123.456.789,00 - instead of commas, decimal points, and instead of the decimal point, commas. The shekel sign may still be used but with an L before it: L₪. The king instituted the new Lx\$ symbol since it is more convenient to use and Hebrew keyboard input is not needed. The Loxodian Shekel still holds the same exact value as the Israeli Shekel.

Another issue currently facing the king is leadership in the 3-nation Micronational Union. Elections for Chairman of the MU is expected to be held soon and open to anyone who is a citizen of the three nations: Loxodia, Werdonia, and Wolfhaven. Facing the MU as well is a centralized platform in which to hold discussions. The Kingdom of Loxodia currently uses Facebook Messenger and Telegram as it standards of communication.

If you a Loxodian citizen and are interested in joining the MU, please contact the Dept. of National Affairs at (737) 777-2408 via text or send a Telegram.

King Cuts Lx\$1 Royalty Paid to Lords

The king decided to cut the Lx\$1 (1 Loxodian Shekel) fee paid to the Loxodian Lords each quarter, since the House of Lords has not officially met as of yet and he stated “there is no need to pay Lords who voluntarily join anyway. When there comes a time when there is more business conducted in the House, this may be reinstated a a future time.”

King Urges Wolfhaven to Lift Sanctions off Werdonia

The King is urging Wolfhaven to remove sanctions from Werdonia . According to the king of Wolfhaven, Werdonia was “making mean comments about the Furry-Community”. Benayahu I believes the Furry-Community to be a completely innocent community and that Werdonia “has no right to make negative comments about a community that they have nothing to do with”. Benyahu I as Chairman of the MU as well as King of Loxodia has tried getting both sides of the story, and states that he regrets not knowing about these sanctions before Werdonia and Wolfhaven joined the MU.

He is currently having talks with both kings of Werdonia and Wolfhaven to restore these relations as quickly as possible. “The MU is an organization to promote peace and unity. That is our motto: *Paco kaj Unueco*. We need to be unified if we are to call ourselvess a ‘union’.

Benayahu I has moved for further questioning about relations with other nations be made to both nations, and to any new member nations seeking membership in the Micronational Union.
